2022-2023 School Accountability Report Card (Published During the 2023-2024 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

2023-24 School Description and Mission Statement

Technology High School seeks to develop the talents of motivated students to become thoughtful and productive members in an increasingly and ever-changing global and technological society. Technology High School offers a rigorous and innovative college-preparatory curriculum to ensure that, upon graduation, all students are prepared for college and/or career.

Technology High School is a regional school of choice focused on Science, Technology, Engineering, and Mathematics. It serves approximately 340-350 students. While a majority of the students are drawn from Cotati-Rohnert Park Unified School District, there is a significant percentage drawn from districts throughout the North Bay. The school serves a broad cross-section of students in grades 9-12 who have an interest in attending an innovative, small, project-based school. Students must possess a strong work ethic and be motivated to meet the rigor of the graduation requirements which include three years of Engineering courses. Graduates are prepared to enter post-secondary education and the workforce as independent, critical thinkers, and decision-makers who recognize that learning is a lifelong process. To accomplish school goals and to support students in reaching learning outcomes, the staff develops, refines, and implements the following: 1) Project-based learning environment, 2) Integrated curriculum, 3) Integration of technology, 4) Maintenance of a small school culture, and 5) Empowerment of students to manage their own learning.

Staff and students are actively involved in a dynamic curriculum design process in which students:

- Develop critical-thinking, teamwork, and problem-solving skills
- Integrate information and skills from multi-disciplinary areas
- Build interpersonal and intrapersonal skills vital for success in a post-secondary environment
- Practice innovative, inventive, creative, and risk-taking thought processes
- Hone lifelong learning skills required for a rapidly changing society, workplace, and world
- Utilize technology to access, organize, compile, analyze, create, and demonstrate new information

A. Conditions of Learning **State Priority: Basic**

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

2020-21 Teacher Preparation and Placement

The CDE published the first year of available teacher data for the 2020-21 SARC in June 2022, and the CDE published the second year of data for the 2021-22 SARC in June 2023. The EC Section 33126(b)(5) requires the most recent three years of teacher data to be requested in the SARC, as data is available. The teacher data for the 2022-23 SARC will not be available prior to February 1, 2024, and therefore is not included in the template.

Note: The data in this table is based on Full-Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

Teachers Without Credentials and Misassignments (considered “ineffective” under ESSA)

School Facility Conditions and Planned Improvements

Technology High School opened at a completely renovated site located at 550 Bonnie Ave. The school is completely upgraded with the most modern safety, technological, accessible, and pedagogical standards. The school has 4 modernized and fully equipped science classrooms. The science classrooms were designed to fit the needs of a project-based curriculum with lab equipment and space to accommodate any current and future labs, projects, and standards. THS has two shops to serve student needs. One shop is dedicated to electronic use. It has 3D printers, vinyl cutters, sewing machines, soldering equipment, and more. The other shop is designed for wood and metalwork. Both shops meet modern safety standards and are fully equipped with tools that are new or are in good working order.

The school has 9 other classrooms and a computer lab. Again all furniture, fixtures, and space are new. The furniture is brand new and designed with modern teaching and learning standards in mind. The furniture is flexible so the students and teachers can arrange it to fit their teaching and learning needs. The school has one computer lab with brand new computers, a student center so students can study and work in groups, an MU to hold music classes, PE, outside sports fields, and locker rooms.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2021-22	School 2022-23	District 2021-22	District 2022-23	State 2021-22	State 2022-23

Mathematics (grades 3-8 and 11)	63	77	24	26	33	34

2022-23 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

2022-23 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

CAASPP Test Results in Science for All Students

This table displays the percentage of all students grades five, eight, and High School meeting or exceeding the State Standard.

Science test results include the CAST and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the CAST plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. 2022-23 Career Technical Education Programs

All students enrolled in Technology High School are required to take the Engineering Sequence of Courses (Project Lead The Way Principles of Engineering, Environmental Sustainability, and Design and Development) and a series of Next Generation Science Standards (NGSS) laboratory science classes (Physics, Biology, Chemistry and choice of AP sciences, computer science or Anatomy & Physiology) every year in order to receive a diploma from Technology High School. This series of courses increases the number of students who enter college and the workforce with a foundation to succeed in STEM advanced studies or a STEM career. The students use computers, engineering and design software, engineering equipment, materials and technology such as CAD software with CNC milling machines to attain the course outcomes.

CTE Course Offerings at THS include:

- PLTW Principles of Engineering
- PLTW Environmental Sustainability
- PLTW Design & Development
- Digital Photography
- Digital Film
- AP Computer Science Principles
- AP Computer Science A

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2023-24 Opportunities for Parental Involvement

Parents of Technology High School students are encouraged to get involved with the school and school activities. They are invited to participate in our Parent Teacher Student Association (PTSA), the Athletic Boosters Association, and the School Site Council. In addition, parents are encouraged to volunteer their time and talent by serving as project mentors, assist with the WASC accreditation process, chaperone school activities, give presentations in classrooms, provide job shadow and internship experiences for students, donate supplies and equipment, judge projects, and support other student activities. We invite parents to a variety of informational nights sponsored by the counseling department, in addition to Back to School Night, to keep them informed of what students need to prepare for college and career. Parents also have access to their student information through the parent portal on the PowerSchool Student Information System and their students' Google Classrooms.

Technology High School is in its third year building a "Learning Network" comprised of parents, community members, and alumni with expertise in targeted academic areas to further assist with connecting learning to the real world and inform and support instructional practices and projects. In the 2022-23 school year, parents were "Career Expedition" day presenters to our students, sharing insights into their careers and what kind of writing tasks happen in their line of work. Career Expedition day was a powerful experience that further connected parents to teachers, students and each other and we expect to continue it annually.

C. Engagement

State Priority: Pupil Engagement

The SARC provides the following information relevant to the State priority: Pupil Engagement (Priority 5):

- High school dropout rates;
- High school graduation rates; and
- Chronic Absenteeism

2023-24 School Safety Plan

The Technology High School Safety Plan was originally developed in the 2019-2020 school year and is updated annually. It is approved by the School Site Council every year. The School Site Council consists of the principal, counselor, teachers, parents, and students. The safety plan is reviewed and revised annually for accuracy of the content and to stay current with the provisions of the law governing emergency response procedures for public institutions. The key components of the plan focus on creating a safe instructional environment that ensures all discipline and safety codes are clearly disseminated, reviewed, practiced, and enforced. Emergency drills are regularly held for earthquakes, civil disturbances, and fire preparedness. The most recent School Safety Plan was reviewed by the THS staff during a practice drill and debrief session on November 29, 2022. It was approved by the THS School Site Council on December 5, 2022.

Fiscal Year 2022-23 Types of Services Funded

Supplemental curriculum, tutors, equipment and materials are acquired with the assistance from the general fund. In recent years, the school has been awarded the following grants:

An Early College Credit Capstone (ECC) Internship pilot in partnership with Santa Rosa Jr College, the CCR Force, and Sonoma County Office of Education.

A T-SEL grant in partnership with SCOE to develop an Advisory program and infuse Social Emotional Learning into the culture of the school and across all academic courses. This grant allowed staff to develop and refine the Advisory program in the 2022-23 and 2023-24 school years.

A CTE Foundation grant to run a “Middle School Girls Coding Boot Camp” during the summer of 2023.

A CTE Foundation grant to hire a Workbased Learning Coordinator to assist students with acquiring Internships and career planning.

Technology High School receives from its PTSA for many items such as mental health resources for students, games and items for play so students can decompress, and snacks for students and staff for special occasions and events.

Professional Development

Professional Development in the Cotati-Rohnert Park Unified School Districts targets research-proven best practices. In addition to three days of training provided outside of the student instructional year, teachers have numerous opportunities to develop as professionals through district-sponsored trainings offered through release time and on regularly scheduled professional development dates.

Teachers meet and collaborate in weekly Professional Learning Communities that have three focus areas: (1) instructional best practice and project design, with an emphasis on ELs (2) grade level to address Social Emotional Learning (and develop Advisory), PBIS and student progress data, and (3) departmental or subject collaboration to discuss differentiating lessons, providing multiple opportunities for students to demonstrate their learning, and create cross-curricular project-based units.

Many Technology High School teachers have been trained for Advanced Placement and Project Lead the Way Engineering courses. The ASB Leadership teacher attends CADA to enhance the curriculum for ASB. Teachers take advantage of SCOE training opportunities in CTE and Science.

Technology High School continuously focuses on improving instructional practices and student relationships.

This table displays the number of school days dedicated to staff development and continuous improvement.
